About Imaginet

Overview

Imaginet Resources Corp. was founded in 1997 with the goal of helping customers optimize Microsoft technologies to create business value.

We accomplish this through great people, great software, best practices, agile processes and skills transfer to our customers.

Our professional consulting team employs a mix of IT industry best practices, innovative solution design thinking and proven Microsoft technologies to develop effective IT solutions in partnership with our 150+ customers globally.

Expertise

The key reasons that organizations benefit from working with Imaginet are our:

- Commitment to partner with customers to build solutions
- Focus on the business benefits of technology in addition to being technical experts
- Deep knowledge of specific Microsoft technologies
- Thorough understanding of the integration capabilities of all Microsoft technologies
- Ability to optimize the integration capabilities of Microsoft technologies with non-Microsoft technologies.
- Commitment to provide skills transfer to customer's employees as new technologies are implemented.

What We Do

Imaginet delivers innovative business solutions with Microsoft technologies. Imaginet has passed the rigorous certification requirements to become a Microsoft Gold Certified Partner, the highest recognized designation in the Microsoft global partner program. Imaginet has earned the Microsoft Gold Certified Partner designation in the following 4 competencies:

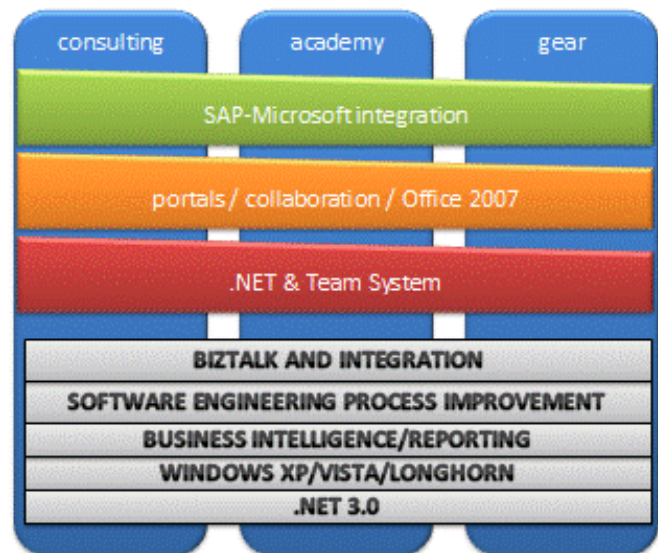

- **Information Worker – Portals and Enterprise Content Management**
- **Custom Development**
- **Business Integration**
- **Security Specialization**

Our business is built upon 3 pillars of service delivery across multiple practice areas including:

- **Consulting (guidance and delivery)**
- **Academy (learning/ skills transfer/ mentoring)**
- **Gear (reusable software assets)**

The core technology practices of Imaginet are indicated below:

Imaginet Technology Practices
